Crucial Inspection

If your clutch has a jutter spring and seat ring, located at the bottom of your clutch pack against the inner hub, these need to be removed

Instructions:

1. Remove stock inner hub from clutch assembly.
2. Re-install Hinson Clutch Components inner hub using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates. Also, we recommend using a petroleum based10w-40 Racing Engine Oil and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil before you install them. Do not use Kevlar or Carbon Fiber clutch plates as they will cause excessive wear and may void your warranty.
